**Subject:** RE: new keypad for alarm in Drug Lab- new code for opening and closing

Additional note for closing. When you set the new unit for the night, it doesn't Peep..peep...peep in one second intervals for 65 seconds to warn you to get out. There is a digital window which visually ticks down the 65 seconds.

**Subject:** new keypad for alarm in Drug Lab- new code for opening and closing

Hart Security changed the circuit box for the Drug Lab alarm and it's operated with a new keypad.

**For closing,** hit....Reset.....Number.....Away (60 seconds to leave)

**For opening,** go through door.....enter number....then hit the vertical ENTER button
